HISTORY OF THE COLLEGE

IN response to a very general and growing desire, frequently expressed by both the laity and the ministry, the East Pennsylvania Annual Conference of the Church of the United Brethren in Christ, at the session held at Lebanon, Pennsylvania, March, 1865, passed by a large vote a resolution to establish a high-grade institution of learning, conveniently located within the bounds of the East Pennsylvania or the Pennsylvania Conference. This matter was referred to a committee consisting of the Revs. Daniel S. Early, G. W. Miles Rigor, W. S. H. Keys and Messrs. John B. Stelman and Abraham Sherk, with instructions to confer with a similar committee from the Pennsylvania Conference and to determine upon a location. One year later, in March, 1866, this committee reported to the Annual Conference session held at Columbia, Pennsylvania, and recommended the following:

First, the establishment of a school of high grade under the supervision of the Church; second, the acceptance for this purpose of the grounds and buildings then known as the Annville Academy (a private institution founded and conducted as such since 1834), which had been tendered as a gift to the Conference; third, the leasing of the buildings and grounds to a responsible party competent to take charge of the school for the following year. The following were elected as a Board of Trustees: Revs. D. S. Early, George A. Mark, G. W. Miles Rigor, J. B. Daugherty, Lewis W. Craumer, David Hoffman, and Messrs. John B. Stelman, John H. Kinports, Abraham Sherk, Rudolph Herr, H. H. Kreider and Samuel Walmer.

School opened May 7, 1866, with forty-nine students. By the close of the collegiate year one hundred and fifty-one were enrolled, thus demonstrating at once the need of such an institution in this locality and the wisdom of the founders.

In April, 1867, the Legislature granted a charter with full university privileges under which a College faculty was organized with Rev. Thomas Rees Vickroy, Ph.D., as president, and Prof. E. Benjamin Bierman, A.M., as principal of the Normal Department. The same year the Philokosmian Literary Society was organized by the young men, additional land was purchased and a large brick building erected thereon with chapel, recitation rooms, president's office, and apartments for sixty boarding students. This building was not furnished and fully occupied till the fall of 1868.

During the administration of President Vickroy the laws and regulations for the internal workings of the College were framed and adopted, the curriculum established, and the first regular commencement held on June 16, 1870. In 1872, through the leadership of the Misses Sarah Burns, Rebecca Kinports and Ellen Jane Mark, the Clonian Literary Society was organized. In 1877, for the purpose of stimulating wholesome rivalry among the men, another literary society was organized. Mr. Horace S. Kephart prepared the constitution and by-laws and Prof. Louis H. McFadden suggested the name "Kalozetean," which was adopted.

In the summer of 1883 a large two-story frame building was erected on College Avenue, containing an art room, music rooms, the department of natural science, a museum and the College library.

On January 1, 1888, the first number of "The College Forum" appeared under the editorship of the Faculty.

Among the early friends of the College was Mrs. Mary A. Dodge, who gave to the College a fund of ten thousand dollars, the interest of which is "to be loaned without charge to such pious young people as the Faculty of the College may deem worthy of help." The Silver Anniversary of the College was observed in June, 1892. The money secured on this occasion was used to purchase three acres of land which was added to the campus.

In 1897, the College began an era of enlargement which resulted in an addition to the old Administration Building, making it twice as large as before, the erection of the Engle Music Hall in 1899, the Carnegie Library and North Hall (the women's dormitory) in 1904. The large Athletic Field at the east end of the town was also added to the assets of the College during this time.

The disastrous fire on the night of December 24, 1904, when the Administration Building was entirely destroyed, tested the loyalty of the patrons and friends of the College. At a meeting held January 5, 1905, the friends of the College resolved, amid unusual enthusiasm, to rebuild at once, and with the stimulus of a gift of fifty thousand dollars from Andrew Carnegie (who had previously given \$20,000 for the library building), plans were matured by which to raise one hundred thousand dollars for this purpose. The erection of three new buildings was projected—the Men's Dormitory, the Central Heating Plant and the new Administration Building.

Through the untiring zeal and earnest efforts of President Lawrence Kiester, D.D., a gift was secured from a friend of the College in western Pennsylvania to equip the Tyrone Biological Laboratory. The Bishop J. S. Mills and the H. S. Immel Scholarships were also added to the funds of the College. At the death of the Rev. Daniel

MEN'S DORMITORY

Eberly, D.D., July 9, 1910, whose will bears date of September 17, 1909, the College came into possession of property valued at about \$52,000, the major portion for the endowment of the Josephine Bittinger Eberly Professorship of Latin Language and Literature.

Beginning with 1912, the College entered upon its greatest era of enlargement and prosperity. Since that date the student body has increased with great rapidity, more than trebling its numbers. Continued progress of the College, however, demanded the securing of an adequate endowment. To meet this need the cooperating Conferences conducted an intensive endowment campaign, which closed June 26, 1918, with subscriptions amounting to nearly \$400,000.

The faculty and leading students realizing the need of an additional women's literary society, organized the Delphian Literary Society in October, 1921.

West Hall, a dormitory for young women, was purchased in 1926.

Stimulated by a conditional gift of \$175,000 for endowment from the General Education Board, New York City, which had previously given \$24,000 for faculty salaries, the Board of Trustees of the College authorized the raising of a fund of \$700,000 during the summer of 1924. By hearty coöperation and most heroic efforts the goal was reached July 1, 1924. At the present time the College has property worth \$600,000 and an endowment of \$912,500.

GENERAL INFORMATION

The College is situated in Annville, a progressive and cultured town twenty-one miles east of Harrisburg in the beautiful, healthful and fertile Lebanon Valley.

BUILDINGS AND GROUNDS

There are ten buildings on the campus: the Administration Building, the Carnegie Library, the Engle Conservatory of Music, the Women's Dormitory, the Men's Dormitory, South Hall, West Hall, the Heating Plant, the President's Residence, and a dwelling house recently purchased.

THE ADMINISTRATION BUILDING contains the administration offices which are of fire proof construction, the recitation rooms of the College, the chemical and physical laboratories, and the Tyrone Biological Laboratory, the equipment of which was provided for by a gift from a friend from western Pennsylvania, who also named it.

The Alumni Gymnasium occupies the ground floor. Here are provided over seven thousand square feet of floor space for the use of the department of physical culture and the promotion of athletic activities. The gymnasium has, in addition to the gymnasium floor, separate locker rooms for the teams, an apparatus room, and shower baths.

THE CARNEGIE LIBRARY, erected in 1904, furnishes commodious quarters for the growing library of the College.

Two large reading rooms on the first floor, splendidly lighted and ventilated, and beautifully furnished, are provided with the leading magazines and daily papers. Periodicals devoted to the special work of each department are here, as well as magazines of general literature. On the second floor are six seminar rooms designed to be equipped with the special works of reference for the various departments.

THE ENGLE CONSERVATORY OF MUSIC, erected in 1899, contains the college chapel, a director's office and studio, practice rooms, and a large society hall. The building is well equipped with pianos and two large pipe organs.

THE WOMEN'S DORMITORY, NORTH HALL, was erected in 1905, and is a building of beautiful proportions. In addition to rooms which will accommodate forty-five students, there are a society hall, a dining hall, a well-equipped kitchen, and a laundry.

THE MEN'S DORMITORY, erected in 1905, contains single

and double rooms and sixteen suites of two bed-rooms with a separate study-room. These afford accommodations for more than one hundred students.

SOUTH HALL, the original building of the institution, acquired by gift in 1866 when the College was founded, has been remodeled as a women's dormitory and contains the Women's Infirmary.

WEST HALL at the northwest corner of the campus was purchased during the summer of 1926. It was remodeled, enlarged, and accommodates about thirty girls.

THE HEATING PLANT, erected in 1905, contains a low pressure heating system, and supplies the heat for the buildings on the campus. It is constructed with a view to the installation of a lighting plant.

THE PRESIDENT'S RESIDENCE is situated on the northwest corner of the campus.

THE CAMPUS of twelve acres, occupies a high point in the center of Annville and is within easy access of bus and railroad lines.

THE ATHLETIC FIELD of five and one-half acres is well located and admirably adapted for the purpose.

LABORATORIES

The entire northern half of the Administration Building is occupied by the Department of Science. The Department of Chemistry occupies the first floor; Physics, the second; and Biology, the third.

The laboratories of each department are constructed after the most approved modern methods. The lecture rooms are provided with risers and Columbia tablet chairs.

RELIGIOUS ACTIVITIES

The College has always tried to furnish religious training, and encourages all means of promoting Christian influence. Each morning a regular service is held in the College Chapel, at which the students are required to be present.

A students' prayer-meeting is held once a week, and opportunities for Bible study and mission study are offered by the Christian Associations in addition to those afforded by the regular curriculum.

All resident students of the College are expected to attend public worship in the churches of their choice, every Sunday.

Christian Associations The College has Young Men's and Young Women's Christian Associations, which hold regular weekly devotional services and conduct special courses of Bible and mission study. They are centers of the spiritual interests

of the students and deserve the hearty support of all connected with the college. Under these auspices public lectures, entertainments and socials are held, which contribute to the pleasure of the student body.

COLLEGE ORGANIZATIONS

Literary Societies Excellent opportunities for literary improvement and parliamentary training are afforded by the societies of the College. There are four of these societies—Philokosmian, Kalozetean, Clonian and Delphian. The last two are conducted by the girls of the college. These societies meet on Friday evening in their well-furnished halls. They are valuable agencies in college work, and students are advised to unite with one of them.

Athletic Association The Athletic Association is composed of all the students of the College and the coöperating Alumni. Athletics are controlled by a Council consisting of representatives of the faculty and alumni.

Student Publication A group of students possessing ability in management and composition is selected annually by the Faculty to bring out a periodical, *La Vie Collégienne*, devoted to college and student interests. This encourages students to write for publication, and affords training of a highly specialized character to a number of those interested in editorial work.

LITERARY AND MUSICAL ADVANTAGES

During the college year, the student body has the privilege of hearing lectures and talks delivered by men of note in Church and literary circles.

The department of music presents a number of programs during the year. Concerts and recitals by prominent musicians are given under the patronage of the Department of Music with the aim of creating in the student body an appreciation of the best in art.

ADMINISTRATION

Admission Candidates wishing to enter Lebanon Valley College by certificate must present credits from High Schools, Normal Schools, and Academies as soon as possible. Since it is at present necessary to limit new registrations to one hundred and twenty-five (125) students, applications for admission will be considered by the committee on admissions on the basis of comparative merit. Blanks for this purpose may be had on application.

Candidates desiring to enter by examination must make application for the examination two weeks before the opening of the school year. Upon receipt of this application the time and place of the examination will be arranged.

Registration Registration is the process of class assignment and is completed over the signatures of the adviser and the Registrar. No student will be admitted to any class without the proper registration card which is sent direct to the department of instruction from the Registrar's office.

The registration days for the collegiate year 1932-1933 are as follows: First semester, Sept. 14 for freshmen and Sept. 17 for other students; second semester, Jan. 16, 17, 18.

Pre-registration To expedite the opening of the school year in September, all students of 1931-1932 will be registered during the month of May for the ensuing year's work. A fee of one dollar will be charged when this is not attended to at the time appointed. Changes in registration will be made in September without charge.

Late Registration Students registering later than the days specified will be charged a fee of one dollar. Students desiring to register later than one week after the opening of the semester will be admitted only by special action of the proper committee.

Change of Registration When change of registration is advisable or necessary such changes must be made in the same way as the original registration, namely, over the signatures of the adviser and Registrar. Such changes will not be permitted after the close of the second week of the session.

Advisers The head of the department in which a student has elected to major becomes the adviser for that student. The adviser's approval is necessary before a student may register for or enter upon any course of study, or discontinue any work. He is the medium of communication between the Faculty and the students majoring in his department, and, in a general way, stands to his students in the relation of a friendly counselor.

Classification Classification will be made on the following credit basis: Freshman standing, 15 Carnegie units; Sophomore standing, 30 semester hours; Junior standing, 60 semester hours; Senior standing, 90 semester hours.

Advanced Standing Registrar. Credits for work done in other institutions, for which advanced standing is desired, must be submitted to the committee on College Credits and a copy filed with the Registrar.

Limit of Hours Every resident student must take at least fifteen hours of work as catalogued. Any student at the close of the semester failing to pass sixty per cent of the work for which he is registered will be required to withdraw from the institution.

The permitted number of extra hours of work, above that prescribed by the curriculum, is limited by the student's previous record, as follows:

- (a) Majority of A's—three hours.
- (b) Lower record than majority of A's—no extra hours.

Class Standing Class standing will be determined at the middle and end of each semester for Faculty consideration. Reports of standing will be made to parents or guardians at the end of each semester, or when the Faculty deems it expedient. The standing is indicated generally by classification in seven groups, as follows:

A (90-100%) signifies that the record of the student is distinguished.

B (80-89%) signifies that the record of the student is very good.

C (70-79%) signifies that the record is good.

D (60-69%) signifies the lowest sustained record.

E (below 60%) imposes a condition on the student.

F (Failed completely) signifies that the student must drop or repeat the subject and cannot be admitted to subjects dependent thereon.

I (Incomplete) signifies that work is incomplete, but otherwise satisfactory.

Graduation Credit A grade of C or better must be obtained in at least half of the total number of semester hours required for graduation.

If the student's record as a whole is poor, he may be required to repeat certain subjects, to repeat the year's work, or to withdraw.

Conditions and Re-examinations Except in the case of the final examinations of seniors, no immediate re-examination will be given to students falling below the passing mark on the regular examinations.

Students obtaining a final average below 60% but above 50% in not more than two subjects will be given a "Condition" in these courses, and such Conditions may be removed by obtaining a mark of 60% or more on a re-examination to be taken at the College during the days appointed for registration for the following year, or at the regular examinations of the following year. The subject matter of such an examination will be the whole work of either

the first or second semester, or both, according to where the student failed to obtain the required 60%.

A fee of \$3.00 will be charged for each examination for the removal of a Condition.

Conditions imposed at the end of the first year must be removed before the student enters the third year, and those imposed at the end of the second or third year must be removed before entering the senior year. Failure to remove a Condition within the above specified time converts the Condition into a Failure.

Absences Should a student be absent once beyond twice the number of times a class meets each week, he will be required to take a special examination, for which a fee of three dollars will be charged. Such examination must be taken within a week of the excess absence; otherwise the student will lose his class standing. Absences immediately preceding or following vacation will be counted double.

Discipline The rules of the College are as few and simple as the proper regulation of a community of young men and women will permit. The government of the dormitories is under the immediate control of the student councils, committees of students authorized by the College authorities.

Chapel All students are required to attend the morning chapel service. Failure to attend will be ground for action by the Faculty upon recommendation of the Committee on Chapel Attendance.

Limitations Students are limited to two of the following college activities: Quittapahilla, Glee Club, Plays, Foot Ball, Basket Ball and Base Ball. This regulation can be set aside only by a special action of the Faculty.

No games between college organizations may be engaged in during study hours except by permission of the Faculty.

Degree and Diploma The Baccalaureate degree will be conferred by the Board of Trustees on recommendation of the Faculty, upon students who shall have completed a minimum of 126 semester hours, and have obtained, in each case, a grade of C or better in not less than one-half of the total number.

Residence Requirement The A.B. and B.S. and B.S. in Economics degrees will, however, be conferred only upon candidates who have spent at least a full year in actual residence. The residence requirement for the degree of B.S. in Education is stated in detail on page 47.

SUMMER, EXTENSION, AND SATURDAY AND EVENING SCHOOLS

In addition to the work offered as outlined in this catalogue, the college offers fully accredited work under three additional schedules as follows: Summer School, Extension School, Saturday and Evening School.

Persons interested in any of these schedules should apply to the Registrar for special bulletin outlining the same.

SCHOLARSHIPS AND TRUST FUNDS

The College offers a limited number of tuition scholarships of seventy dollars a year. It also makes some loans.

Students preparing for the ministry in the Church of the United Brethren in Christ and having quarterly or annual conference license to preach, will be entitled to \$100 reduction in tuition in the college on certain conditions.

The rates on the following pages apply to the school year 1932-1933.

MATRICULATION

The Matriculation fee in the College is \$25.00, and must be paid on or before September 1 to assure accommodations. This fee is not subject to refund, nor is there any rebate allowed for any reason. The greater portion of this fee is used for student activities.

Special students who take less than half work in the regular appointed classes, or any students who take work outside of regular recitation periods, are required to pay matriculation according to the number of hours taken.

Matriculation for Music ranges from one dollar to twenty-five dollars. No additional fee is required for music from students who have already matriculated in College departments.

TUITION

For seventeen hours or less in the College the annual tuition is \$220. Seven dollars will be charged for each additional hour of work taken in regular classes when the total number of hours for the year exceed thirty-four.

Ministers' children in either the College or Music department are entitled to a rebate on full tuition of \$50. Scholarships do not cover the tuition for extra work taken.

LABORATORY FEES

To cover the cost of materials used in the Laboratories, the following fees are charged:

All breakage in the Chemical Laboratory will be charged against the individual student and any balance of the above deposits due the student at the completion of his course will be returned or credited to his account, and any deficit beyond his deposit will be charged to his regular College account.

BOARDING

The domestic department is in charge of a skilled and competent chef. Plain, substantial and palatable food especially adapted to the needs of the student is provided. The kitchen is furnished with the most modern equipment and all food is prepared in the most sanitary manner.

The boarding rate for the college year 1932-1933 is \$200.00. Students who leave college during the term will be required to pay board at the rate of \$6.50 per week during their stay in college. These rates do not include Christmas and Easter vacations.

All students who do not room and board at their homes are required to room and board in the college unless special permission is obtained from the Executive Committee to do otherwise. Students refusing to comply with this regulation forfeit their privileges as students in the College.

ROOM RENT

Room rent varies from \$50.00 to \$104.00 except when double rooms are assigned to only one student, in which case the occupant will pay the regular rent for two. Rooms are reserved for those who forward the matriculation fee prior to August 1; applications received after that date must be accompanied by the fee to assure accommodations.

Occupants of a room are held responsible for all breakage and loss of furniture or any loss whatever for which the students are responsible. A breakage fee of \$10 is required of each student rooming in the Men's Dormitory. All or part of this may be returned at the end of the year. A dormitory service fee of \$6 is charged

men in the Dormitory. A breakage fee of \$5 is required for each student in the Women's Dormitories. After deducting the cost of repairing damaged walls or furniture, the balance will be returned.

REQUIREMENTS FOR ADMISSION

Students may be admitted to Freshman standing in Lebanon Valley College on the following plans:

I. Admission by Certificate. The following classes of candidates are admitted to Freshman standing on presentation of certificates signed by the proper authorities showing the kind and amount of work done:

1. Graduates from any four-year high school course approved by the Pennsylvania State Department of Education.

2. Graduates from any four-year course of a school accredited by the Association of Colleges and Preparatory Schools of the Middle States and Maryland, or by the State University of the state in which the school is located.

Such certificates must represent a total of at least 16 units of work and must meet the requirements outlined in the Table of Requirements for Admission. They must also indicate that the respective candidates are qualified to pursue collegiate education successfully. Candidates whose preparatory records are unsatisfactory to the committee on admissions will be refused admission.

A unit represents the work of a school year of no less than thirty-six weeks, with five periods of at least forty-five minutes each per week, or four periods of one hour each per week. A unit, therefore, is the equivalent of one hundred and eighty recitation periods of forty-five minutes each, or one hundred and forty-four periods of one hour each.

Blank entrance credit certificates will be furnished upon application to the Registrar.

II. Admission by Examination. Candidates not presenting approved certificates may be admitted upon examination. Examinations will be given upon the work covered by the list of secondary subjects approved by the Association of Colleges and Preparatory Schools of the Middle States and Maryland. Candidates for admission by examination must meet the same specific requirements as those for admission by certificate.

Physical Examination

All incoming students are required to take a thorough physical examination during the registration period.

BIOLOGY

PROFESSOR DERICKSON, ASSOCIATE PROFESSOR LIGHT, AND ASSISTANTS

The work outlined in the following courses in Biology is intended to acquaint the student with those fundamental facts necessary for the proper interpretation of the phenomena manifested by living things with which they are surrounded and to lay a broad foundation for specialization in universities in professional courses in Biology.

Those completing the courses will be well prepared for the work in medical schools, for graduate work in colleges and universities, for teaching the biological sciences in high schools and for assistantships in university and experiment station laboratories in the departments of agriculture and the United States Biological Survey.

Major: Course 18 and any additional courses of higher number, including laboratory work, in the department amounting to sixteen semester hours.

Minor: Course 18 and eight semester hours from courses of higher number in the department.

18. General Biology. Four hours. Throughout the year. Two or three hours class work and four or three hours laboratory work each week. The aim of the course is to acquaint the student with the fundamental structures and processes of living things.

The work of the course is organized in three sections. The assignment of a student to a section is determined by the profession for

which he is preparing. The fundamentals are the same in each section but special emphasis is placed upon those phases that will be most helpful to meet the end in view.

The sections are:

(1) Pre-medical. For those preparing to enter medical schools or preparing for other technical lines of biological work.

(2) Educational. For those preparing to teach the biological subjects in the secondary schools.

(3) Cultural. Providing a general cultural background essential for the correct interpretation of life, a fuller appreciation of the beautiful in nature and more healthful living.

Required of Freshmen majoring in Biology.

Required of Sophomores majoring in Chemistry, Mathematics and Physics. Elective for others.

28. Botany. Four hours. Throughout the year. Offered 1932-1933.

Three class periods and four hours laboratory work each week. The object of the course is to give the student a general knowledge of the plant kingdom. The form, structure and functioning of one or more types of each of the divisions of algae, fungae, liverworts, mosses, ferns and seed plants are studied.

Special attention is given to the phylogeny and ontogeny of the several groups and constant comparisons are made of those structures indicating relationships. The principles of classification are learned by the identification of about one hundred and fifty species of plants represented in the local spring flora. These studies are conducted in the field so that the plants are seen as dynamic forces adapted to their environment.

38. Zoology. Four hours. Throughout the year. Offered 1933-34.

Three lectures or recitations and two laboratory periods of two hours each, per week.

The course is intended to acquaint the student with the structure, life history and behavior of representatives of each phylum of animals. In the study of types, structure, function and adaptation are given equal emphasis. The principles of phylogeny and ontogeny are considered.

The laboratory and class work is supplemented by field studies including observations of habits, ecological conditions and the use of keys for identification and classification.

48. Comparative Vertebrate Anatomy. Four hours. Throughout the year. Offered 1932-33. Six hours laboratory work and two hours of conference and demonstration each week.

The course consists of the dissection and study of a suctorial fish, a cartilaginous fish, a bony fish, an amphibian, a reptile, a bird and a mammal.

Carefully labeled drawings are required of each student as a record of each dissection.

Recommended to those preparing for medicine or majoring in Biology.

58. Vertebrate Embryology and Histology. Four hours. Throughout the year. Offered 1933-34. Two lectures and six hours laboratory work each week.

The course consists of the study of the principles of development of vertebrates. The origin of the sex cells, fertilization, the environment of the embryo, the histogenesis of tissues and organs, and the significance of the transition stages in development receive attention. The laboratory work of the first half of the year is based on the chick and pig, the remainder of the year to the normal histology of the adult mammalian tissues.

Each student receives individual instruction in the technic necessary for the preparation of the material used in the course.

Elective for those preparing for medicine or majoring in Biology.

Texts:—Patten's *The Chick and Pig*; Bremer's *Textbook of Histology*.

64. Genetics. Two hours. Throughout the year. Offered 1932-33.

This course deals with the mechanism and laws of heredity and variation and their practical applications to mankind.

74. Biological Problems. Two hours throughout the year or four hours either semester. An honors course. Laboratory work with conferences.

This course is open to a limited number of students majoring in Biology who have made a distinguished record in their previous courses. It consists in working out problems assigned to them involving a practical application of various methods of technic, originality of method and interpretation and the development of the spirit of research. A weekly conference and report on the progress of the work will be required and a detailed report including complete records of the work done must be presented before Senior examinations.

84. Bacteriology. Four hours. First semester. Offered 1933-34. Two class periods and four hours laboratory work each week.

This course is designed to acquaint the student with various forms of bacteria and their role in nature. It includes laboratory technique in cultivation, sterilization, isolation of pure cultures, and staining of bacteria.

94. Physiology. Four hours. Second semester. Offered 1931-32. Two class periods and four hours laboratory work each week.

A course of instruction in general physiology dealing with the tissues of the body and especially their function in respiration, digestion, circulation, excretion and reproduction.

A general course in historical and structural geology giving attention to the processes and dynamic agencies by which the crust of the earth has been formed and evolved into its present condition with special attention to the fossil remains of plants and animals therein contained.

BUSINESS ADMINISTRATION

PROFESSORS STOKES, GINGRICH AND POND

See page 65 for general outline of the complete course in Business Administration.

EDUCATION AND PSYCHOLOGY

PROFESSOR REYNOLDS, ASSOCIATE PROFESSOR BAILEY, PROFESSOR BUTTERWICK AND ASSISTANTS

The major aim of this department is to provide professional courses for those who desire to teach in Junior or Senior high schools. And in view of the fact that education is one of the most important concerns of society, a minor aim of the department is to acquaint the college men and women with the varied problems of education and thus help give society intellectual leadership.

The courses of the department have been planned with special reference to the requirements of the State of Pennsylvania. Students who, for any reason, wish to teach in other states, should early consult with the head of the department in the selection of courses to meet the requirements of such states.

The Pennsylvania State Council of Education has approved the following regulations for the College Provisional Certificate:

This certificate entitles the holder to teach for three years in any public high school of the Commonwealth the subjects indicated on its face, and to teach in the elementary field where the applicant is a holder of a certificate for teaching in this field or has completed an approved curriculum in a school of education in preparation for teaching in such field.

Such a curriculum will be approved when the six semester hours of prescribed electives are in the field of elementary education and the six semester hours of practice teaching are with pupils of elementary school age.

The applicant for this certificate must be a graduate of an approved college or university and must have successfully completed at least eighteen semester hours of work of college grade in education distributed as follows:

Introduction to Teaching.....3 semester hours

Educational Psychology (General
Psychology is a prerequisite).....3 semester hours

Practice Teaching in the Appropriate
Field6 semester hours

Electives in Education selected from
the following list6 semester hours

Secondary Education	Educational Sociology
Elementary Education	Educational Systems
School Efficiency	History of Education
Special Methods	Principles of Education
School Hygiene	Educational Psychology
Educational Administration	Technique of Teaching
Educational Measurements	

The practice teaching requirement may be met by one hour a day of observation and practice teaching with one hour a week of conference in connection therewith for one half year.

Three years of successful teaching experience in the field in which certification is sought, together with a teaching rating of "middle"

or better, may be accepted as the equivalent of the practice teaching requirement.

Until September 1, 1931, the holder of this certificate will be certificated to teach subjects in which not fewer than twelve semester hours have been completed and after September 1, 1931, to teach subjects in which not less than eighteen semester hours have been completed.

In order to meet these requirements, students of the college who are candidates for the A.B. or B.S. degree are advised to do their major and minor work in subjects which are ordinarily taught in the public schools. They should, furthermore, register for Education 124, 13, 33, Psychology 13, Psychology 23, Education 136, and 182, preferably in the order named. Those students desiring a major in Education should, in addition to the above courses, register for Education 82, 23 and 73. In addition to the above it is highly desirable that students preparing to teach in our secondary schools should register for Psychology 42—The Psychology of Adolescence. Wherever possible this work should be started in the Freshmen year.

By action of the Department of Public Instruction, in October, 1923: "The six semester hours of practice teaching may be met by three semester hours of actual classroom experience in observation, participation and practice teaching under approved supervision and three semester hours of methodology or administration related to this experience."

To those who are preparing for work in Education as a profession, and who desire to make a more complete preparation than the minimum required by the State, a major in Education leading to the degree of B. S. in Education is offered. For this, courses in Education or Educational Psychology totaling twenty-four semester hours are required, and in addition two minors, chosen from related fields, of eighteen semester hours each.

The residence requirements for this degree may be met either by spending a full year in actual residence or by earning 30 semester hours in residence either during the Summer School or during the regular academic year. The student should consult page 35 for the regular requirements for the degree.

Students whose college work falls below the median grade of the college are strongly advised not to consider education as a profession. Such students are not barred from attempting to secure certification, but will be admitted to courses in education of senior standing with reluctance on the part of the head of the department and in individual cases may be refused recommendation.

PLACEMENT BUREAU

In order to give students the benefit of calls that are received for teachers and to render greater assistance in finding employment, the College provides for a Placement Bureau to keep on file records of students with their credentials for those who desire it. For registration with the bureau a fee of one dollar is charged.

The Placement Bureau of the College cooperates with the Placement Service, Teacher Bureau, of the Department of Public Instruction, Harrisburg, Pennsylvania, thus offering additional facilities for the placement of graduates of this institution.

Games, Pageantry, and Folk Dancing. 3 hours per week, 3 S.H. credit:

This course considers the utilization of music in connection with games, with pageants, and with folk dancing. This utilization is two fold, viz: applying music to existing games; pageants, and dances and developing games, pageants and dances suitable to existing music. The entire work centers about effective school procedures.

Voice, Piano, Organ, Chorus, Orchestral and Band Instruments. 4 hours per week, 2 S.H. credit:

The work in the foregoing fields will be organized from the standpoint of the development of musicianship in the individual student. The work continues through eight semesters and assures a well-rounded and many-sided acquaintance with various musical techniques.

Private instruction is provided in Applied Music (Piano, Voice, Organ, Violin, and all instruments of orchestra and band.)

Piano: Mrs. Bender, Mr. Campbell.

Voice: Mr. Crawford.

Organ: Mr. Campbell.

Violin: Mr. Malsh.

Instruments of Band and Orchestra: Mr. Rutledge.

A bulletin describing courses in Practical Music will be sent upon application.

MUSIC AND THE A.B. DEGREE

Music study may be credited toward the A.B. Degree to a total of twenty semester hours (five semester hours per year). For such credit the requirements are as follows: Two half hour recitations per week in Applied Music, two hours per day in practice, two hour recitations per week in harmony.

Before entering upon this course of study the candidate must pass the examinations required by the Director of the Conservatory.

A student desiring credit for this course of study is expected to continue the same until graduation. Credit will not ordinarily be granted for single year of study. Only under exceptional conditions may such credit be granted by the faculty upon recommendation of the Director of the Conservatory.

THE STUDENTS' RECITALS

The students' Tuesday evening recital is of inestimable value to all students in acquainting them with a wide range of the best musical literature, in developing musical taste and discrimination, in affording young musicians experience in appearing before an audience, and in gaining self-reliance, as well as nerve control and stage demeanor. These recitals also enable all students and others who are interested in music to gain a much wider acquaintance with musical literature than would otherwise be possible. Students in all grades appear on the programs of these recitals. Each senior is required to present one special graduation recital.

FEEES

Matriculation for Music ranges from one dollar to twenty-five dollars. No additional fee is required for music from students who have already matriculated for College departments.

Semester bills are payable strictly in advance of recitations. Students are registered at the office of the College Registrar over the signature of the Director of the Conservatory.

The Rates for the Public School Music Supervisors' Course will be \$220 per year. This will include two private lessons per week, use of piano two hours daily for practice, and Theoretical and Academic Courses not to exceed seventeen points. Charges will be made for extra private lessons at the rate of \$25 per semester for one lesson a week. Extra hours in Theoretical or College Courses will be charged at the rate of \$7 per semester hour.

Private Lessons

Rates are determined by the classification of the pupil and the fees charged by the different professors.

The rates per semester, two hours per week, range from \$34.00 to \$50.00, and for one lesson per week from \$17.00 to \$25.00.

Class Lessons

The rate for all Theoretical courses given as class work is \$18.00 per semester for each course.

Rent of Practice Instruments

Piano, one hour daily per semester.....	\$4.00
Each additional hour daily per semester.....	2.00
Organ, one hour daily, per semester.....	20.00
Organ, two hours weekly, per semester.....	10.00
Band and Orchestra Instruments, per semester.....	6.00

RULES AND REGULATIONS

Students are not enrolled for a shorter period of time than a full semester, or the unexpired portion of a semester; and no reduction is made for delay in registering when the time lost is less than one-fourth of the semester.

No reduction is made for absence from recitations except in case of protracted illness extending beyond a period of two weeks, in which case the loss is shared equally by the college and the student.

Conservatory students are under the regular college discipline.

The Men's Glee Club and the Eurydice Choral Society are organized under the direction of the Department of Music.

ABSENCES

Should a student be absent once beyond twice the number of credits received per semester for that course, he will be required to take a special examination, for which a fee of three dollars will be charged. Such examination must be taken within a week of the excess absence; otherwise the student will lose his class standing. Absences immediately preceding or following vacation will be counted double.

SUMMER SESSION

1932

SIX WEEKS TERM

Opens June 20

Closes July 29

The work of the Summer Session is conducted in two separate schools. One division is conducted on the campus of the college where work in all departments is offered. For the convenience of students in the vicinity of Harrisburg, a separate division, with limited offerings, is conducted in Edison Junior High School Building, located at 19th and Chestnut Streets, in the city of Harrisburg. The opening and closing dates and the tuition rates and credits offered for the work are the same for both divisions. No accommodations are available for residence in Harrisburg, while in Annville the complete college plant is at the disposal of summer students.
